## II—VARIATION IN POPULATION DURING FIFTY YEARS

1. The only units affected by the transfer of villages from one district to another are Thana, Bombay Suburban and Broach & Panch Mahals districts and in these cases the population for previous decenniums has been adjusted so as to represent the population of the area of the district as it stood on the 1st March 1941
2. Owing to the fact that the details of all States for which individual figures are now given were not extracted previously, separate figures for some of the State units are not available

## **V—TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY COMMUNITIES**

1 Cantonment areas have been treated as separate towns

2 The term "suburb" means an area outside a municipal area but possessing urban characteristics and having population of not less than 1,000. All such populations have been treated as rural for the purpose of determining the urban or rural populations shown in the district, divisional, provincial and states totals

## PROVINCIAL TABLE I—AREA AND POPULATION OF TALUKAS

1 For definitions of "town", "village" and "house", see notes to Imperial Table I

2 The areas of talukas and mahals are entered from the data furnished by the Director of Land Records, Bombay, while the Survey of India figures have been adopted for the areas of districts in this Table and Imperial Table I. This explains the divergences between the figures of the district areas as given in the Table and those obtained by adding together the areas of the talukas and mahals.
